NICE has become the history of the Korean financial infrastructure industry.

Every moment over the last 31 years of NICE GROUP,
we have ceaselessly tride to push the envelop.

We have charted new territories in the financial infrastructure sector and
become the one and only comprehensive infrastructure group in the world.

NICE GROUP Introduction

A formerly known as National Information & Credit Evaluation Inc., NICE GROUP was founded in 1986.
It launched a comprehensive credit service in 1989 for the first time in Korea and has gradually expanded
its business scope into adjacent areas, including ATM, credit card VAN and asset management.
Not resting on its laurels, NICE GROUP has created or entered into new business territories and established
its business portfolio consisting of three major pillars; credit information, financial service and manufacturing.
